ABOUT ME

As a higher national diploma in IT student at Hardy University (SLIATE), I have spent the last year honing my skills in HTML, CSS and JavaScript to build the parts of websites. I enjoy working with designers and other developers to make sure everything fits together perfectly.

I'm always learning about new tools and techniques to make websites even better, and I am eager to bring this same drive and commitment to the Frontend developer intern position to your esteemed company. I am confident that my strong technical skills and creativity make me an excellent candidate for this role.

EDUCATION

RKM Vidyalaya, Akkaraipattu — GCE(O/L)

March 2007 - December 2018

Pass all subjects

SRK College(NS), Akkaraipattu — GCE(A/L)

March 2019 - December 2020

Pass all subjects

SLIATE, Ampara — HNDIT

July 2021 - Following

PROJECTS

Responsive Portfolio — *using html, css and js*

Most of the people learn many designing parts in a portfolio website and I will create my portfolio using minimum codes and best output. if you want see live [click here](#) or Source code [click here](#)

Book Shop — *using html, css and js*

I will create an ecommerce website without back-end work Because I'm not fully fluent in Php. The reason I created the website is to use the front-end only but I got the best output. if you want see live [click here](#) or Source code [click here](#)

SKILLS

HTML

CSS

JS

SQL

PHP

Wordpress
